Manage your finances

- **Create account rights with Access ManagerSM** – provide others, such as key employees or an accountant, with limited or full online account access – you specify and control what they can see and do.

- **Receive alerts** – choose to be notified by phone, e-mail or text message when checks clear, deposits post, balances change and much more.
- **Link multiple businesses and personal accounts** – access all your business accounts (even personal accounts and accounts with different tax identification numbers) with one user ID and password.

Gain greater flexibility

- **Manage your accounts** – make stop payments, reorder checks and deposit tickets, change contact information and more.
